

Shannon Hillyer - Bio

Joining BD Medical in 2013 as a Clinical Consultant in the New England region, Shannon became the clinical area field trainer for the east coast as well as winning CC of the year. After exceling in customer education and training, her focus shifted to the expansion and creation of customer solution programs, landing her the Clinical Solutions Manager role.

Shannon was one of the architects of BD's Vascular Access Management program, an integrated solution aimed at assisting customers in reducing vascular access complications. She partnered with key healthcare institutions across the US to quantify the impact of improving clinical and economic outcomes associated with vascular access management and supported their evidence generation effort to continue to shape the way clinicians deliver care at the bedside.

Shannon has been the recipient of the "MPS Clinical Impact Award" and received the Global Marketing Value Offer Award two years in a row. Shannon now works in a global role bringing the Vascular Access Management solution to developing regions around the world. Leveraging her position within industry to influence the tools and services nurses receive in order to deliver the best possible care to their patients is Shannon's passion.
